

Indian FDI in the United States

India is the fourth fastest growing source of foreign direct investment (FDI) into the United States. The total stock of FDI from India to the United States is \$11 billion, more than two percent of all FDI in the United States that comes from Asia-Pacific. In the United States, FDI from India provides:

New Jobs: U.S. subsidiaries of Indian firms employed over 43,800 U.S. workers in 2012. The average yearly salary of these workers was \$69,840.

Innovative R&D: In 2011[†], U.S. subsidiaries of Indian-owned firms invested \$46 million in research and development in the United States.

More U.S. Exports: Indian-owned firms contributed more than \$2 billion to U.S. goods exports in 2012.

[†]2012 R&D figures suppressed to avoid disclosure of individual companies.
